BEGINS ITS ATTACK OF HARRIMAN MERGER

Government Brief Criticizes Court of Appeals for Dismissing Petition.

Washington, D. C., March 13.—The government's fight to split the merger of the Union Pacific and Southern Pacific systems has opened in the supreme court of the United States. Attorney general Wickham and his special assistants, Frank B. Kellogg and Cordell A. Severance filed a comprehensive brief of their argument to be made orally in court shortly after April 1.

The government criticized severely the circuit court of appeals of the ninth circuit which dismissed the petition for dissolution of the merger. Judge Hook alone dissented.

Life Insurance Companies They Are Closely Observing Public Health Conditions

An examining physician for one of the prominent life insurance companies in an interview on the subject, made the following statement: "The reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of applicants do not even suspect that they have the disease."

He states that judging from his own experience and reports from druggists who are constantly in direct touch with the public, there is one preparation that has probably been more successful in relieving and curing these diseases than any remedy known. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of cure.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—fifty-cent and one-dollar.

However, if you wish first to test its wonderful merits, send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle, absolutely free. What writing be sure and mention the El Paso Daily Herald.

True enough. But there is little doubt that the property will increase in value during that time sufficient to cover those expenditures.

Isn't it worth while—just as a business proposition—not to speak of the comfort there is in being your own landlord?

Shanklin in Washington. Consul general Arnold Shanklin, of Mexico City, arrived here last night with a report upon the effect of the disturbances upon the business situation in Mexico and their relation to American investment. Mr. Shanklin admitted the situation was serious, but declined to discuss it. His report may be presented at the conference today.

To Reimburse Texas. President Taft has sent to congress a brief message recommending an appropriation sufficient to reimburse the state of Texas for the salaries of additional Texas rangers employed in policing and patrolling the Mexican border the last three months of 1911 and in January, 1912. Patrol service by the rangers, the president said, saved the United States a more extended army patrol.

Mexico's Greatest Danger. Mexico City, March 13.—Members of the European diplomatic corps here see in the free passage of arms through the Yucatan, the greatest menace to Mexico. One of the diplomats accredited to Mexico, declared today that the introduction of arms is a menace not only because of the present rebellion but because the introduction of arms is bound to spread through the republic and its effects will be felt for years.

All the foreign diplomats here are alarmed on this account, the spokesman declared, because the danger arising from this source is as great to other foreigners as to citizens of the United States.

Guarantees Not Suspended. The permanent commission of congress has refused to "suspend guarantees" throughout the republic as requested by minister of foreign relations Manuel Calero.

DENIES THAT THERE IS FIGHTING IN SONORA. Commissioner to Indiana Says the Yaquis Are Almost All Peaceful.

B. J. Villjoen, Yaqui Indian commissioner of the Mexican government, arrived Wednesday morning in El Paso from Guaymas. He denies that he was engaged in a battle with the Yaqui at Oros last Saturday, as reported by a number of American refugees. "As far as I know, Sonora is quiet," he said. "On last Wednesday night a band of 'broncho' Indians came down near Oros and stole 15 tame Indians. That has been the only excitement. There are no more than 200 Yaquis in arms and all the rest are peaceful. I understand there were two small bands of Mexican rebels operating near Agua Prieta and that the leader of one band was killed and the other band driven into the United States. There are about 1500 federal regulars in the state and most of them are stationed at Torin, on the Yaqui river."

TRAINS DELAYED BY STORMS NORTH

Golden State Limited for Tuesday 26 Hours Late; Wednesday's Worse.

Storms in the central west and northern states are again interfering with the train service of the El Paso & Southwestern. After the road was cleared of snow after the tie-up of last week, the trains are again delayed. Tuesday's Golden State limited was caught in the storm and as a result is 26 hours late, and will not arrive in El Paso until 5 o'clock Wednesday afternoon. The Golden State limited for Wednesday has been lost completely as to the time it shall arrive in El Paso, and with No. 1 has been marked indefinitely delayed. Train No. 34 is acting as a stub between El Paso and points on the road where traffic is open and is doubling back as train No. 1.
